

## INDOOR TRAINING

There's no reason not to train even if we are indoor most of the time now!

Get some videos and pictures of you at home, walking around the garden (or around the dinner table) and up and down your stairs as part of your training.

Showing your commitment to your challenge, even in difficult circumstances may spur your donors to give more!

## VIRTUAL QUIZ EVENTS

You can hold an online quiz event and your players can be anywhere in the world. You will only need to set up a date and time of the event, and your players will need to register.

You can set up prizes as you would normally do, and fundraise from the player registrations tickets!

## ONLINE GARAGE SALE OR AUCTION

Now is the best time to start cleaning your house, and why not...sell the items you don't need and raise the money to support your cause!

Now that everybody will focus on cleaning their houses, why not ask your friends and family for items to use in an online auction!

## HOST ONLINE CLASSES

## CELEBRITY COOKING /ONLINE TEACHING

Find a local chef or a fitness instructor who would be willing to host an online class for your cause and people can join you from all over the world!

There are many online platforms that you can use to sell online classes, the only thing you need to decide on is, what are you good at: yoga class, cooking class, dancing class, pottery class, home teaching class, even a gardening class.
